COST COMPARISON

To showcase that we are proud to offer luxury services at truly competitive rates, we offer a series of side-by-side cost comparisons between our venue and other premier wedding venues across Georgia and the Southeast.

While each wedding package is uniquely tailored based on the season, guest count, and curated selections, this general comparison highlights the exceptional value and inclusions we offer relative to other venues, that offer the same if not, less than South Eden, but cost more.

These examples are illustrative and not reflective of your specific package. However, we would be happy to provide a personalized cost comparison based on your custom package, should you wish to review it.
