Detox Experiences

for weddings/events, overnight guests, & off-site visitors.

ION Foot Bath Detox

Sit back and relax during an ionic foot bath detox used to pull the toxins out of your body through your feet pores, which are the largest in your body. An electronic array energizes the water while absorbing the released toxins and other wastes that have accumulated over your lifetime. The water color indicates the source of the toxins. This treatment's benefits include balancing the body's pH, reducing swelling, relieves stress, increasing immunity to illness, aiding weight loss, improving heart health, and destroying harmful microorganisms.

(For your convenience, gratuity is already included in your treatment pricing.)

30 minutes | \$35 |

(Must book at least 3 consecutive OR simultaneous side by side foot detoxes)

Couple's/Double's 30 minutes | \$70 |

(These treatments will be simultaneously side by side)

50 minutes | \$80 |

(Please note that we can do up to 4 simultaneous side by side foot detox baths at a time. All services are performed in our Main House treatment rooms OR an overnight suite depending on our event schedule.)
